

My family and I listen to Air 1 on 90.1, 89.5, and 100.7 in S. CA. We are well served by this station and would be a tremendous loss to our community if this station is displaced by LFPM. We have too many trashy stations in this area now. This station is a wholesome alternative for all these communities' kids. Please don't take this station away from parents in my area wishing to teach good moral values. Thank you!!
